The Most Full-Featured Forecasting Solution, at the Most Affordable Price

John Galt's new ForecastX Premium builds on the industry-leading success of the ForecastX Wizard. Premium is based on the world's most accurate and powerful forecasting engine and features the same easy-to-use Excel-based interface as the Wizard. Premium also adds powerful new features that offer greater interactivity, closed-loop collaboration, streamlined reporting and advanced inventory planning.

Entry-Level Supply Chain Planning

ForecastX Premium includes all the features of the ForecastX Wizard and adds the ability to:

- Create multi-level hierarchies and rebalance changes on the fly
- Instantly view the effect of forecast scenarios on inventory with on-fly DRP
- Experiment with promotional strategies on the fly using Reapply Event
- Produce collaborative forecasts with enhanced reporting features

ForecastX Premium is fully Vista-compatible, allowing users to leverage the full power of the world's most advanced operating system.
